convenience

The Reichert ClearChart™ Digital Acuity System

Reichert's ClearChart™ Digital Acuity System is a comprehensive solution for all your acuity chart needs. It's purpose-built, all-in-one design is not only sleek and attractive to fit your refracting

environment, it also eliminates the need for a PC or additional components.

Featuring a 15-inch, high-contrast LCD flat-panel screen, the ClearChart can be mounted with its standard wall bracket or an optional table stand. A convenient, infrared remote control enables activation of all tests from virtually anywhere in the room.

Full Featured

ClearChart incorporates all of the features and functionality you need for effective and efficient visual acuity testing.

- Large range of optotypes and tests
- Random sequencing
- Contrast sensitivity testing
- Bright, sharp, high-contrast display
- Simple remote control
- ETDRS
- Mirrored setup capability

Convenience and Comfort

ClearChart enhances the refracting experience for both doctor and patient.

The bright, high-contrast display enables the procedure to be performed with the room lights on. This provides a more comfortable environment for the patient and easier operation of the remote control, as well as easier reading and recording of measurements for the doctor.

The Hearing Impaired Patient Communication System facilitates more rapid and effective testing of patients with hearing difficulties and may qualify your purchase for Americans With Disabilities Act Tax Credits*.

Reichert Quality

The Reichert name ensures a high quality, reliable instrument that you can count on every time.

*Consult with your tax advisor.
